

Attachment B

Sole Source

SOLE SOURCE/BRAND REQUEST

When a request is made for a non-competitive purchase and the specifications limit the bidding to one source and/or one brand or trade name, the requesting department must complete the following:

VENDOR/COMPANY NAME: Stryker

1. Please check one:

- ☒ **SOURCE:** Item is available from one source only. Item is one-of-a kind and is not sold through distributors. The manufacturer is exclusive distributor.
- ☐ **SOLE BRAND:** Various sources can supply the specified model and brand, and competitive bids will be solicited for the requested brand only. Meets form, fit and function - nothing else will do.
- ☐ **STANDARDIZATION REQUEST:** The City of Victorville _____ (Department name)
Department requires the item(s) to standardize parts; design; quality; training; etc...

2. What are the unique performance features of the product / brand requested that are not available in any other product / brand? (For services: What unique qualifications, rights, licenses does this vendor possess?)

They provide powered gurneys and power load which helps assist with putting the gurney into the vehicle.

3. Why are the unique performance features REQUIRED (not merely preferred), and how would your requirement be inhibited without this service or item? N/A

Having automatic gurneys and autoloader will assist our fire personnel w/heavy lifting, avoiding injuries.

4. If justification is based on matching and/or interdependent with existing equipment (refer to 1. Standardization Request), list the quantity, manufacturer, brand, and model of the existing equipment and why the matching is required.

Please see attached for further justification.

I am aware of the City of Victorville's policy for competitive bidding and the established criteria for sole source/sole brand purchasing. Therefore, I feel confident that this request for sole source/sole brand procurement meets the City of Victorville's criteria and will withstand an audit or a vendor protest.

Power-LOAD® Cot Fastener sole source information

To whom it may concern,

Stryker certifies that we are the sole manufacturer of Stryker's Power-LOAD Cot Fastener (Model 6390). This correspondence is to inform you of the characteristics of the Power-LOAD Cot Fastener. These characteristics can be broken down into two primary categories: **qualifications** and **ease of use**.

Stryker's Power-LOAD (Model 6390) Cot Fastener is mounted within the patient compartment and is intended to aid in the loading/unloading of patients. Stryker's Power-LOAD is the only powered cot fastening system that meets the following:

Qualifications:

- IPX6: The system is tested to withstand powerful water jets.
- IEC 60601-1 and IEC 60601-1-2: The Power-LOAD Cot Fastener conforms to industry standards for mechanical and electrical safety for medical electrical devices, as well as electromagnetic compatibility and immunity.
- BS EN-1789:2007, clause 4.5.9 when used with Power-PRO Cot and X-Restraints: This is a European dynamic crash test which subjects a 50th percentile dummy to nominal 10g deceleration for a minimum of 50ms. Following the test there shall be no sharp edges.
- SAE J3027 compliant when used with Stryker's Power-PRO Cot and X-Restraints

Ease of use:

- Provides a linear guide for loading and unloading the cot.
- Allows for remote actuation from Power-PRO foot end controls.
- Engages to the cot during loading and unloading, providing a means of lifting and lowering.
- Safe working load of 870 lb and capable of lifting patients weighing up to 700 lb.
- Mounts inside the patient compartment to prevent environmental exposure and corrosion.
- Power washable.
- Capable of inductively charging Stryker's SMRT Battery.

Please contact your Sales Representative for further information.

Sincerely,

John Guyeskey, Sr. Manager, Downstream Marketing
