ATTACHMENT B

The chart below reflects the distribution of Sales Tax to Macerich since the inception of the Sales Tax Agreement in 2013. There is a steady gain in activity from 2013 until 2016. This has been followed by several years of decline which have been primarily a loss of sales to online retailers. Total amount paid through 2021 is \$2,491,245 and with the approval of council for this payment, the total through 2022 would be \$2,900,205 of the maximum \$18.89 million threshold with 18 years remaining in this agreement. Next year is predicted to be lower than 2021 based on current information received to date.
