I. OVERVIEW

A. INTRODUCTION

The City of Victorville (City) City-Wide Street Lighting Assessment District (SLAD or District) annually levies and collects special assessments in order to maintain streetlight improvements. These improvements are located within the SLAD and established pursuant to the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (the “1972 Act”).

This Engineer’s Report (Report) describes the SLAD therein, any changes to the District, and the proposed assessments for Fiscal Year 2023/2024. The proposed assessments presented in this Report are based on the historical and estimated costs to maintain the improvements that provide special benefits to properties within the District. The costs of improvements and the annual levy include the expenditures, deficits, surpluses, revenues, and reserves associated with those improvements. Each parcel is assessed proportionately for only those improvements provided and for which the parcel receives benefits.

The report is prepared in compliance with the requirements of Article 4, Chapter 1 of the Landscaping and Lighting Act of 1972, (hereinafter referred to as the “Act”) which is Part 2, Division 15 of the California Streets and Highways Code.

This Report, certified by a licensed civil engineer, details the District, and includes plans and specifications of the improvements; an estimate of the costs of the improvements, including maintenance and servicing; a diagram, i.e., maps of the District showing the boundary of the District, the parcels or lots which benefit, and an estimate of costs of the improvements, maintenance, and servicing. Once the Report is completed, it is presented to the Victorville City Council (City Council), acting as the legislative body for the District, for its review. The City Council may approve the Report as presented or may order amendments to the Report and approve the Report as modified.

After the initial approval of the preliminary Report, the City Council shall adopt the Resolution of Intention which declares its intent to levy and collect assessments within the District, which includes a description of the improvements, the maintenance and servicing of those improvements, refers to the District by a distinctive designation, may refer to the Report for the details of the District, and sets the time and place for a public hearing on the levy of the proposed annual assessments.

At the public hearing, the City Council will consider any public testimony in favor and/or opposing the assessments to fund the continued maintenance and servicing of the improvements. In conjunction with this hearing, any new or increased assessments over the approved maximum assessment rate will require confirmation of the assessments through a property owner protest ballot proceeding pursuant to the provisions of the California Constitution Article XIII D (Proposition 218.) For Fiscal Year 2023/2024 the rate is not proposed to increase over the approved maximum assessment rate.

Following final approval of the Report and confirmation of the assessments, the City Council may order the levy and collection of assessments for Fiscal Year 2023/2024 pursuant to the 1972 Act. In such case, the assessment information will be submitted to

the San Bernardino County Auditor-Controller and included on the property tax roll for each benefiting parcel for Fiscal Year 2023/2024. Benefiting parcels that do not receive a property tax bill, due to their status as non-taxable with San Bernardino County, will be billed directly by the City.

For the purposes of this Report, the word “parcel” refers to an individual property assigned its own Assessor’s Parcel Number (APN) by the County of San Bernardino (County) Assessor’s Office. The County Auditor-Controller uses APNs and specific Fund Numbers to identify properties on the tax roll assessed for special District benefit assessments.

B. HISTORICAL BACKGROUND

The District was formed to provide funding for the maintenance of street lighting within the District boundaries. Resolution 13-012, approved by the City Council on May 28, 2013, provided the noticing and balloting requirements along with the Engineer’s Report, in accordance with Article XIII D of the California State Constitution (Proposition 218). After the ballots were tabulated, the City Council found that a majority protest did not exist. The City Council then adopted Resolution 13-013 on July 23, 2013, forming the District.

II. PLANS AND SPECIFICATIONS

A. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to this District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or construction of public lighting facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing lighting improvement otherwise authorized pursuant to this section.
- Incidental expenses associated with the lighting improvements include, but are not limited to:
 - The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
 - The costs of printing, advertising, and the publishing, posting, and mailing of notices;
 - Compensation payable to the County for collection of assessments;
 - Compensation of any engineer or attorney employed to render services;
 - Any other expenses incidental to the construction, installation, or maintenance and servicing of the lighting improvements;
 - Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
 - Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including the repair, removal, or replacement of all or any part of any lighting improvement.

B. DESCRIPTION OF IMPROVEMENTS TO BE MAINTAINED AND SERVICED

The City-Wide Street Lighting Assessment District was established to collect funds to cover the expenses for energy and maintenance of streetlights in the City. The majority of the costs are billed by the Southern California Edison Company. The services to be provided in the District consist of all aspects of the administration, construction, operation, maintenance, rehabilitation, replacement, and servicing of the street lighting, traffic signals, and appurtenant facilities, including but not limited to personnel, contractual services, energy, utilities (such as water), graffiti removal, construction activities (such as grading, concrete, pavement, etc.), installation of new systems and facilities, operation, maintenance, rehabilitation, and servicing of the facilities described herein.

The improvements to be provided in the District include, but are not limited to; poles, fixtures, bulbs, conduits, miscellaneous equipment, including but not limited to; wiring, electricians, anchors, posts and pedestals, metering devices, controllers, and

appurtenant facilities as required to provide street lighting and safety lighting located within the public rights-of-ways, easements, and signaled intersections which have been constructed and those which may be subsequently constructed within the District boundaries.

There are approximate 7,078 Streetlights in the SLAD as identified below:

- Streetlights that are owned by Southern California Edison (SCE) 6,567
- Streetlights that are City-owned and maintained 28
- Streetlights are owned and maintained by Victorville Municipal Utility Services (VMUS) 92
- Safety streetlights 391

III. ESTIMATE OF COSTS

The Act provides that the estimated costs of the improvements shall include the total cost of the improvements for Fiscal Year 2023/2024, including incidentals, which may include reserves to operate the District until first installment funds are transferred to the City from the County.

The Act also provides that the amount of any surplus, deficit or contribution be included in the estimated cost of improvements. The net amount to be assessed on the lots or parcels within each district is the total cost of installation, maintenance, and servicing with adjustments either positive or negative for reserves, surpluses, deficits, and/or contributions.

Estimated costs of improvements for the SLAD are as identified below:

DESCRIPTION	FISCAL YEAR 2023/2024 ESTIMATED BUDGET	SPECIAL BENEFIT	LESS CITY CONTRIBUTION *	SOURCE OF CONTRIBUTION	TOTAL FUNDED BY SLAD
STREET LIGHTING - LOCAL	\$1,095,903	100%	\$0	\$0	\$1,095,903
STREET LIGHTING - ARTERIAL	455,301	25%	399,837	AD VALOREM & FUND BALANCE	55,464
TRAFFIC SIGNALS	1,612,653	50%	1,508,020	AD VALOREM, PASS THRU & FUND BALANCE	104,633
TOTAL	\$3,163,857		\$1,907,857		\$1,256,000

* City contribution exceeds the General Benefit percentage amount due to revenue constraints in the District.

IV. METHOD OF ASSESSMENT

A. BACKGROUND

The Landscaping and Lighting Act of 1972 provides that assessments may be apportioned upon all assessable lots or parcels of land within an assessment district in proportion to the estimated benefits to be received by each lot or parcel from the improvements. In addition, Proposition 218 requires that a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel. Proposition 218 provides that only special benefits are assessable, and the City must separate the general benefits from the special benefits conferred on a parcel. A special benefit is a particular and distinct benefit over, and above general benefits conferred on the public at large, including real property within the District. The general enhancement of property value does not constitute a special benefit.

B. SPECIAL BENEFIT ANALYSIS

Proper operation and maintenance of the street lighting, traffic signals and parking lot lighting of the Park-N-Rides benefit all properties within the City by providing security, safety, community character, and vitality.

Street Lighting: All properties within the City receive special and direct benefit from the street lighting that is located along arterials and major thoroughfares as they provide a positive enhancement to the City. In addition, all lots, or parcels, in the City receive a city-wide benefit from the street lighting along arterials and thoroughfares. Parcels that front on streets that have street lighting receive an additional local benefit from street lighting. The special benefit assigned for streetlights on arterial roads is 25%. The special benefit assigned for streetlights on local (non-arterial) roads is 100%. It is estimated that 25% of the arterial road users are locals and use those roads when the streetlights are on, enjoying the special benefit. Benefits of street lighting in terms of security & safety includes; mitigates crime; alleviates the fear of crime; reduces traffic accidents; and enhances pedestrian safety. Community character and vitality benefits includes; promotes social interaction; promotes business and industry; contributes to a positive nighttime visual image; and areas with decorative lighting provide a pleasing daytime appearance.

The benefit provided by streetlighting consists of safety for pedestrians and motorists living and owning property in the District during the nighttime hours. This is a particular and distinct special benefit to all developed parcels in the District.

Streetlights can be determined to be an integral part of streets as a permanent public improvement. One of the principal purposes of fixed roadway lighting is to create a nighttime environment conducive to quick, accurate, and comfortable seeing for the user of the facility. These factors, if attained, combine to improve traffic safety, and achieve efficient traffic movement. Fixed lighting can enable the motorist to see detail more distinctly and to react safely toward roadway and traffic conditions present on or near the roadway facility.

Streets are constructed for the safe and convenient travel by vehicles and pedestrians. They also provide an area for underground and overhead utilities. Streetlights are installed on and are for street purposes and are maintained and serviced for optimum use of the

streets as intended in their design. Assessments for the maintenance and servicing of streets may include streetlights.

Streetlights are considered an integral part of the entire street, the same as curb, gutters, pavement, signage, and striping. They are the elements that provide a safe route for motorists and pedestrians. Streetlights are installed to make streets safer.

Streetlights are installed to provide better visibility for drivers. One hundred (100) percent of the illumination from the lights is directed to the street: ninety (90) percent on the street side of the curb and ten (10) percent behind the curb. The spacing of the lights is based on the speed of the vehicles and the natural ability of the motorists' eyes to adjust to light and dark areas.

Traffic Signals: All properties within the City benefit from the proper functioning and maintenance of the traffic signal system which is located within the City on major thoroughfares. Proper operation of the traffic signal system is imperative to orderly traffic flow, enhanced congestion management and safety, and minimizing the City's liability with regards to traffic accidents. Traffic signals increase the desirability of a community by promoting enhanced traffic flow and enhanced safety to business and residential properties. The special benefit assigned for traffic signals is 50%. It is estimated that 50% of the users of a traffic signal are from the local area and enjoy a special benefit. Benefits of traffic signals in terms of security and safety includes, enhanced congestion management and safety, promotion of enhanced traffic flow through signal coordination, reduces City's liability to traffic accidents, assists with meeting the State of California's emissions standards, improves emergency response times by signal pre-emption. Community character and vitality benefits includes; orderly traffic flow; promotes business and industry; and contributes to a positive nighttime visual image.

The systems of streets within the District are established to provide access to each parcel in the District. Streetlights and Traffic Signals provide a safer street environment for owners of the parcels served. If the parcels were not subdivided to individual parcels within the District, there would be no need for providing a system of streets with safety lighting for the owners of the individual parcels.

C. GENERAL BENEFIT ANALYSIS

In addition to the special benefits received by the parcels within the District, there are incidental general benefits conferred by the improvements.

The Ad Valorem Tax received each year for street lighting from the County funds the operation and maintenance of the lighting systems of parcels that receive only a general benefit. Although there is a special benefit component to arterial street lighting and traffic signals the costs are fully funded by ad valorem taxes and the City's general fund as identified in the annual budget.

Thus, the total benefits are a combination of the special benefits to the parcels within the District and the general benefits to the public at large. The portion of the total streetlight maintenance costs which are associated with general benefits are not assessed to the parcels in the district but are paid from the funds identified above. The contribution from

ad valorem and general fund are more than adequate offsetting any general benefit element for street lighting and traffic signals.

D. EQUIVALENT BENEFIT UNITS

In order to allocate benefit fairly between the parcels, an Equivalent Benefit Unit (EBU) methodology, which equates all land uses to a single-family residential parcel, thereby allowing a uniform method of assessment.

The EBU method uses the single-family home as the basic unit of apportionment. A single family residential (“SFR”) home equals one Equivalent Benefit Unit (EBU). Every other land use is converted to EBU’s as described below. All properties in the District will be assigned benefit units and land use classifications per the County Assessor’s roll. (Inaccuracies in the County data will be reviewed on a case-by-case basis as they are brought to the City’s attention.)

Single Family Residential (SFR):

The SFR parcel has been selected as the basic unit for calculation of the benefit assessments. This basic unit shall be called an Equivalent Benefit Unit or EBU.

- Parcels, or lots, designated as Single Family Residential (SFR) land-use will be assigned one (1.00) EBU per parcel, or lot including vacant subdivided residential lots, or parcels.
- SFR lots, or parcels, that are developed but remote; or, are vacant and remote within recorded subdivision maps; or, are vacant and have an approved tentative map with entitlements but have not yet recorded, will be assessed 0.50 EBU's per parcel, or lot. The calculation would be based upon the future designated number of lots, or parcels, multiplied by the EBU factor.
- SFR lots, or parcels, that are vacant; or, are vacant, remote, and have an approved tentative map with entitlements but have not yet recorded, will be assigned 0.25 EBU's per parcel, or lot. The calculation would be based upon the future designated number of lots, or parcels, multiplied by the EBU factor.
- SFR lots, or parcels, that have acreage, are not subdivided, are vacant, and are not remote will be assigned 0.25 EBU's per parcel, or lot.
- SFR Rural Residential lots, or parcels, that do not have Street Lights installed and are developed or vacant will be assigned 0.25 EBU's per parcel, or lot.
- SFR lots, or parcels that are developed but in a local area without street lights will be assessed at 0.25 EBU's per parcel, or lot.
- SFR lots, or parcels, that have acreage, are not subdivided, are vacant, and are remote will be assigned 0.00 EBU's per parcel, or lot.

❖ Remote is defined as a parcel, or lot, not adjacent to a paved street that may or may not be fully improved with curb or gutter.

Multi-Family Residential:

Multi-Family Residential (Multi-Family) are land-use lots, or parcels, that include Mobile Home Parks, Condominiums, and Apartments. Multi-Family lots, or parcels, are proposed to be determined by multiplying the number of dwelling units on each lot or parcel by the relative population density of these types of dwelling. Therefore, the EBU's assigned to Multi-Family Residential will be the product of the number of dwelling units multiplied by an EBU factor of 0.80.

- Parcels, or lots, designated as Multi-Family Residential land-use (Multi-Family) will be assigned 0.80 EBU's per dwelling unit, or parcels unit, including vacant subdivided Multi-Family Residential lots, or parcels.
- Multi-Family parcels, or lots, that are developed but remote; or, are vacant and remote within recorded subdivision maps; or, are vacant and have an approved tentative map with entitlements but have not yet recorded, will be assessed 0.40 EBU's. The calculation would be based upon the future designated number of dwelling units, multiplied by the EBU factor.
- Multi-Family parcels, or lots, that are vacant, remote, and have an approved tentative map with entitlements but have not yet recorded, will be assigned 0.20 EBU's per dwelling unit. The calculation would be based upon the future designated number of dwelling units, multiplied by the EBU factor.
- Multi-Family lots, or parcels, that have acreage, are not subdivided, are vacant, and are not remote will be assigned 0.25 EBU's per parcel, or lot.
- Multi-Family lots, or parcels, that have acreage, are not subdivided, are vacant, and are remote will be assigned 0.00 EBU's per parcel, or lot.

❖ Remote is defined as a parcel, or lot, not adjacent to a paved street that may or may not be fully improved with curb or gutter.

Office Professional, Commercial and Industrial:

It is proposed that lots and parcels with a land-use of Office Professional, Commercial or Industrial will be converted to EBU's using the factor of four (4) EBU's per acre.

- Office Professional, Commercial and Industrial land-use lots, or parcels, will be assessed four (4) EBU's per acre or any portion thereof as explained herein.
- Office Professional, Commercial and Industrial land-use lots, or parcels, that are vacant will be assigned EBU's at a rate of 50% of the developed Office Professional, Office Professional, Commercial and Industrial land use lots or parcels, or two (2) EBU's per acre.
- Vacant Remote Commercial parcels not adjacent to a paved road will be assigned zero (0) EBU's.

❖ Remote is defined as a parcel, or lot, not adjacent to a paved street that may or may not be fully improved with curb or gutter.

Public Property and Institutional:

Public Property and Institutional, Open Space, and Agriculture land-use equivalencies are to be determined by their use and will be subject to the same assessment amount as private property with the same use.

Public Property

- Public Property will be assessed the same as private property and based on the lot's, or parcel's, land-use. For example, a Police Station, and City Hall would be assessed the same as the Office Professional, Commercial and Industrial land-use using the factor of four (4) EBU's per acre for developed and two (2) EBU's per acre for vacant lots, or parcels. However, the Green Tree Golf Course would be assessed the same as a developed SFR, one (1) EBU per lot, or parcel.

Schools

- Schools will be assessed the same as the Office Professional, Commercial and Industrial land-use. The lots, or parcels, that make up a school site will be converted to EBU's using the factor of four (4) EBU's per acre or any portion thereof.
- School lots, or parcels, that are vacant will be assigned EBU's at a rate of 50% of the developed School lots, or parcels, and of developed Office Professional, Office Professional, Commercial and Industrial land-use lots or parcels, or two (2) EBU's per acre.

Institutions

- Institutions, such as prisons, will be assigned the same as the Office Professional, Commercial and Industrial land-use. The lots, or parcels, of the Prison will be converted to EBU's using the factor of four (4) EBU's per acre or any portion thereof.
- Vacant institutions, such as prisons, will be assigned EBU's at a rate of 50% of the developed institutional lots, or parcels, and of developed Office Professional, Office Professional, Commercial and Industrial land-use lots or parcels, or two (2) EBU's per acre.

Parks, Open Space, and Agriculture:

Parks, Open Space, and Agriculture land-use equivalencies are to be determined by their use and will be converted to EBU's using the factor of one (1) EBU's per acre.

Parks and Open Space

- Parks and Open Space that are developed will be assigned EBU's the same as Single-Family Residential lots, or parcels, one (1) EBU per lot, or parcel.
- Parks and Open Space lots, or parcels, that are vacant will be assigned 0.50 EBU's per dwelling unit.

Agriculture

- Agriculture lots, or parcels, that are developed will be assigned EBU's the same as Single-Family Residential lots, or parcels, one (1) EBU per lot, or parcel.
- Agriculture lots, or parcels, vacant will be assigned 0.50 EBU's per dwelling unit.

Exempt:

The following areas would be exempt from the assessment; public streets, public avenues, public boulevards, public lanes, public roads, public drives, public courts, public ways, public alleys, public easements and rights-of-ways, public greenbelts, open space, parkways, and that portion of public property that is not developed and used for business purposes similar to land-uses of private commercial, industrial, and institutional activities. Additionally, utility rights-of-ways, easements, drainage channels, drainage basins and parcels that are used solely for the purpose of accessing entry to parcels, and those parcels that have been vacated by the City that have little to no value and don't benefit from the improvements are also proposed to be exempted from assessment.

A methodology has been developed to calculate the EBU's for other residential land uses and for non-residential parcels. Every land use is converted to EBU's. "Remote" is defined as a parcel, or lot, not adjacent to a paved street that may or may not be fully improved with curb or gutter.

The following table identifies the weighting factors for various land uses as reported by the most current year's San Bernardino County Assessor's Secured Roll, which determines each parcel's EBU assignment:

E. ASSESSMENT RANGE FORMULA

Over time, the District's budget may be impacted by inflation. In an effort to minimize this impact on the District and ensure the long life of the street lighting improvements, an Assessment Range Formula for inflation was included as part of the Maximum Assessment Rate presented to property owners when the District was formed. The formula, as described herein, provides for an annual inflationary adjustment to the Maximum Assessment Rate that may be imposed each year without requiring the extensive procedure and cost of balloting for normal operational cost increases. The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and inflationary adjustment to the assessment amounts without requiring costly noticing, mailing, and ballot procedures, which would further increase the assessments.

Consumer Price Index: For administrative costs, the Consumer Price Index (CPI), as developed by U.S. Bureau of Labor Statistics (BLS), is used to calculate the annual inflationary adjustment to the Maximum Assessment Rate. Each fiscal year the City shall identify the annual percentage change in the CPI, using the difference over a 12-month period between the current year and of the previous year. This annual percentage change in the CPI is generally established based on the percentage change from January to January as determined by the BLS for urban consumers for the Riverside-San Bernardino-Ontario Areas. This percentage difference shall then be used to establish the increase to the Maximum Assessment Rate proportionate to the non-electric power portion of the budgeted expenses. Should the BLS revise such index or discontinue the preparation of such index, the City shall use the revised index or comparable system. For Fiscal Year 2023/2024, the percentage difference from January 2022 to January 2023 is 7.33%. Historical CPI changes are listed below:

Fiscal Year	Change in CPI
2023-2024	7.33%
2022-2023	8.59%
2021-2022	2.25%
2020-2021	3.03%
2019-2020	3.05%
2018-2019	3.51%
2017-2018	2.11%
2016-2017	3.10%
2015-2016	-0.06%
2014-2015	0.77%

California Public Utility Commission (CPUC): For electrical power costs that make up the majority of the Operation and Maintenance costs of the District, the base assessment rate levied for each EBU may be increased as authorized by resolution of the CPUC for the cost of supplying power only to the City's lighting systems and facilities. On August 19, 2021 CPUC approved Southern California Edison's General Rate Case Application 19-08-013, resulting in a 7.63% increase for 2021, 5.54% for 2022, and 6.00% in 2023.

The following table summarizes the historical Maximum and Applied SLAD rates.

Fiscal Year	Applied Rate	Max Rate	% of Max
2023-2024	\$ 19.45	\$ 22.13	87.89%

VII. DISTRICT ASSESSMENT ROLL

The proposed assessments for each parcel within the District will be submitted to the County Auditor/Controller to be included on the property tax roll for Fiscal Year 2023/2024. If any parcel listed herein for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be recalculated based on the method of apportionment and assessment rates as approved herein.

Due to size limitations the Preliminary Assessment Roll has been provided under separate cover.
